

**Sabrina-Foam** is a foam extraction machine, with internal compressor. It sprays a special **dense foam** on the surface to be cleaned, either carpet or upholstery. The foam density is adjustable. Sabrina-Foam can also work as an injection-extraction machine.

Its **high-waterlift** vacuum system allows to recover the maximum quantity of dirt from carpet and upholstery and to get a shortest drying time.

Sabrina-Foam can also be used with the power-brush tool NS270BRUSH, in order to get a better cleaning result, thanks to the mechanical action of the cylindrical brush.

**Main application fields:** Cleaning companies, hotels, conference halls, restaurants, clubs, pubs, offices, banks, shops, rental companies, trains, busses, planes, cinemas, theatres, ferry boats, ships, airports, schools, universities, shopping centres.

### Advantages of Sabrina-Foam:

- Cleaning with **dense foam**, carpet and upholstery gets dry in a very short time: about 20 minutes.
- The same machine can be used with **foam-extraction** system or with **injection-extraction** system.
- **high-waterlift** vacuum system allows to recover the maximum quantity of dirt from carpet and upholstery and to get a shortest drying time.
- Possibility to use the machine with a the special rotating brush wand **NS270BRUSH**, to enhance the cleaning result thanks to the mechanical action of the cylindrical rotating brush. The wand can be used for foam-extraction cleaning or injection-extraction cleaning.

Optional NS270BRUSH

Foam extraction carpet cleaning

Foam extraction upholstery cleaning

Waterlift

Drying time

Residual dirt

 Sabrina-Foam  
 Standard carpet extractors

### Other technical advantages of Sabrina-Foam

1. High density polyethylene tanks, very strong and made for lasting a long time.
2. Transparent unbreakable cover, which allows to see the dirty water while it is sucked.
3. Recovery tank with integrated handle. The tank can be easily detached from the machine body, in order to make the tank emptying and cleaning easier.
4. The filter of the vacuum motor is easily removable for cleaning.
5. The gaskets are replaceable by hand since they are not glued. Easy to clean and change.
6. Strong wheels, in anti-mark rubber.
7. Brass quick-disconnect couplings, reliable and strong.
8. Water pump with bypass, which allows an automatic regulation of the optimal water flow according to the tool used. Moreover, the bypass device makes the pump more reliable and avoids problems in the years.
9. Pump built on Santoemma specifications, for a longer life.
10. Vacuum motor with thermal protection against overload.
11. Vacuum motor treated against rust.
12. Both motor and pump can work continuously.
13. Modular design that makes the maintenance easier. The maintenance of the machine can be done at low costs.

### Technical Data

Approximate performances:	20-30 seats/hour
Recovery tank capacity:	14 litres
Solution tank capacity:	14 litres
Vacuum motor:	Two stages – <b>High Waterlift</b>
Power:	1500 W
Maximum waterlift:	3000 mm H <sub>2</sub> O
Maximum air-flow:	45 l/sec.
Pump with by-pass:	Vibrating
Power:	70 W
Maximum pressure:	4 bar
Maximum water-flow:	1,5 l/min
Compressor:	350 W
Dilution rate:	1 part detergent to 4 parts water
Chemical consumption:	10 grams/seat
Cable length:	10 m
Hose length:	2,5 m
Weight (machine body):	38 kg
Weight (packaged machine):	55 kg
Dimensions:	32 x 55 x 87 cm
Package dimensions:	42 x 65 x 103 cm
Standard colours:	Blue
Tank construction:	High density polyethylene

**\*The effective performance depends on the type of cleaning required: restorative deep cleaning - maintenance cleaning.**

Complete machine with hoses H10-M + foaming tool FOAM.BRUSH-M + hand tool for vacuuming (3280) + 2 tanks of foaming chemical T-FOAM

€

**Suggested optional tools (see also *Sabrina-Foam Professional Set*)**

	<b>T-FOAM</b>	Special foaming chemical for textiles, 5 liter tank	€
	<b>NS270TURBODUST</b>	Complete accessory with internal bag for vacuuming before cleaning, Ø 32/38	€
	<b>FOAM.LANCIA-M</b>	Foaming gun suitable for places with many seats (cinemas, theatres etc.)	€
	<b>NS270N-FOAM</b>	Optional tool, specific for foam extractors, which is able to spray and subsequently vacuum foam. This tool can be used for cleaning small areas of carpets or mats. By turning a lever on the tool, the bristles around the vacuum head can brush the carpeted surfaces.	€
	<b>NS270BRUSH</b>	Special wand, 270mm wide, with a cylindrical rotating brush, to be used for cleaning carpet. The wand can be used for foam-extraction cleaning or injection-extraction cleaning.	€
	<b>9022</b>	Hose for filling up the clean water tank easily. It can be used to connect the water tap to the machine tank, without spilling water.	€
	<b>HERMES-M</b>	Tool which allows to wash and dry walls and windows. The solution is injected by 2 nozzles, which are inside the vacuum head, so that it is possible to clean a vertical surface without water dropping on the floor. Hermes is supplied with a brush slide and a rubber slide, to clean rough or smooth surfaces.	€
	<b>NS270P-M</b>	This tool works with the same principle of Hermes. Its two extensions allow to wash and dry hard floors, high walls and even ceilings.	€
	<b>ST810</b>	Three speed air blower, high performance, 1 Hp, 230V – 50Hz, for quick drying of carpet after cleaning. Equipped with wheels and extensible handle, easy to transport. Stackable.	€

## Sabrina-Foam PROFESSIONAL SET

**Machine with accessory to spray foam  
FOAM.BRUSH-M and hand tool 3280**

**Power brush tool  
NS270BRUSH**

**Foaming gun  
FOAM.LANCIA-M**

### **Sabrina-Foam PROFESSIONAL SET** includes:

- Machine body, hoses H10-M, accessory to spray foam FOAM.BRUSH-M and vacuuming hand tool 3280
- 2 tanks of chemical T-FOAM
- The power brush tool NS270BRUSH, for foam-extraction cleaning or injection-extraction cleaning with cylindrical rotating brush
- The foaming gun FOAM.LANCIA-M, suitable for places with many seats

### Advantages with Sabrina-Foam PROFESSIONAL SET:

1. Cleaning with dense foam, carpet is left almost dry after cleaning and can be completely dry in 20 minutes.
2. It is possible to clean with injection-extraction or foam-extraction system according to the situation.
3. The cleaning result is excellent thanks to the mechanical brushing action, both with foam-extraction cleaning and with injection-extraction cleaning.
4. It is possible to adjust the brushing pressure, in order to better adapt to the carpet type.

#### **Complete Sabrina-Foam Professional set, including:**

machine body, hoses **H10-M**, accessory to spray foam **FOAM.BRUSH-M**, vacuuming hand tool **3280**, 10 litres of **T-FOAM** chemical, foaming gun **FOAM.LANCIA-M**, power brush tool **NS270BRUSH** for foam-extraction or injection-extraction cleaning with cylindrical rotating brush.
